PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Fresenius Medical Care – North America with a mailing address of 920 Winter Street, Waltham, MA 02451. They seek to obtain an air contaminant permit (Division identification number: 78-0213-01/62093) for an installation of a Stand-by Generator at 1210 Fox Meadow Blvd., Sevierville, TN 37862. This proposed operation would consist of a stand-by diesel generator. It will be used only for the purpose of providing stand-by electrical power to avoid an interruption in the dialysis treatment. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants would be emitted by this source. Ms. O. Jacobsen is the assigned Division person.

For the Sevier County *Mountain Press* -- published once on or before Thursday, July 10, 2008.

The applicant is Hendersonville Funeral Home with a mailing address of 353 Johnny Cash Parkway, Hendersonville, TN 37075. They seek to obtain an air contaminant permit (Division identification number: 83-0407-01/62091) for construction of a Human Crematory Operation located at the same address. This proposed operation would consist of a natural gas fired incinerator and associated equipment used to cremate deceased human remains. An afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Reynolds is the assigned Division person.

For Sumner County *News Examiner* -- published once on or before Thursday, July 10, 2008.

The applicant is MAPCO Express, Inc. with a mailing address of 7102 Commerce Way, Brentwood, TN 37027. They seek to obtain an air contaminant permit (Division identification number: 94-0150-01/62078) for modification of a Gasoline Dispensing Facility located at 2408 Goose Creek By-Pass, Franklin, TN 37064. This existing operation consists of three (3) underground tanks and twelve (12) gasoline nozzles. A Stage I and Stage II vapor recovery would be used for gasoline emission control. The requested modification is for the addition of six (6) gasoline nozzles. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Collins is the assigned Division person.

For the Williamson County *Williamson AM* -- published once on or before Thursday, July 10, 2008.

PUBLIC NOTICE

Tennessee Valley Authority (TVA) has applied to the Tennessee Division of Air Pollution Control (TDAPC) for approval to construct an addition at the Lagoon Creek combustion turbine electric generating facility, located at 615 Elm Tree Road, near Brownsville, Tennessee. The proposed addition would consist of two (2) combustion turbine / heat recovery steam generator (CT/HRSG) units with duct burners, one steam turbine, one auxiliary boiler, and various ancillary equipment. The CT/HRSG units, duct burners, and auxiliary boiler would be fueled exclusively with natural gas. No significant increment consumption would be expected. The project is subject to review under the State rule for Prevention of Significant Deterioration of Air Quality (PSD), Paragraph 1200-3-9-.01(4) of the Tennessee Air Pollution Control Regulations, which requires a public notification and thirty-day public comment period.

The TDAPC has reviewed the proposed addition with respect to the above referenced PSD rule. The TDAPC has made the determination that construction of the addition can be approved if certain conditions are met. A copy of the forms submitted by Tennessee Valley Authority (TVA), and other materials used by the TDAPC in making this determination, are available for public inspection during normal business hours at the following locations:
